

DETAILED ACTION

Allowable Subject Matter

Claims 21-27 and 49 are allowed.

Claim 21 recites, "section information generating means for generating section information discriminating the modified section from the non-modified section in the modified information data by a start time or an end time, a length of the non-modified section being changed according to the start time or end time," which is a unique feature that is not disclosed by prior art.

Claims 22-27 are allowed because they depend from independent claim 21 above.

Claim 49 is allowed for the same reason as discussed in claim 21 above.
